DEA

DEA compliance is key for healthcare providers who prescribe and dispense Controlled Substances (Schedules II through V). Our attorneys are trailblazers at the forefront of the battle against opioid abuse and recognized authorities in DEA compliance. Creators of industry-respected program integrity guidelines to ensure regulatory compliance, Nelson Hardiman works with clients to address DEA audits and compliance actions and assists clients in ensuring strict compliance with DEA requirements.

Nelson Hardiman attorneys leverage decades of government enforcement experience to represent healthcare providers during investigations, audits, and administrative actions by the federal Drug Enforcement Administration (DEA). We help clients understand federal (DEA) and state (California Bureau of Narcotics Enforcement, BNE) regulatory compliance requirements and avoid the risks of monetary penalties, loss of DEA certification, licensing actions, or even criminal sanctions. Nelson Hardiman works with healthcare providers to ensure DEA compliance proactively and in response to DEA actions.
