NELSON HARDIMAN
HEALTHCARE LAWYERS

License Defense

NH provides expert counsel to practitioners facing complaints, subpoenas, inspections, investigations, interviews, and possible discipline by their professional licensing boards. Among our experience is representation of clients before licensing boards in California, including the Medical Board, Dental Board, Board of Registered Nursing, Board of Psychology, Board of Physical Therapy, Board of Occupational Therapy, Osteopathic Medical Board, Physician Assistant Board, Board of Vocational Nursing and Psychiatric Technicians, Speech-Language Pathology and Audiology and Hearing Aid Dispensers Board. In advising our clients, we take into consideration each client's personal and professional goals, in light of our multi-decade experience with the boards' investigators, attorneys, administrative law judges and appeals.
