

Nelson Hardiman Successfully Represents a multi-physician practice in its affiliation with a hospital system foundation model

Nelson Hardiman represented a multi-physician practice in its affiliation with a hospital system foundation model. This transaction included an asset sale and a new series of management services and employment agreements. There was additional complexity arising from existing and future non-solicitation clauses arising from the fact the physicians were active with the hospital system's chief competitor. Nelson Hardiman successfully negotiated a transition plan allowing for a smooth affiliation without competitive pressures on the physicians from either the prior hospital system or the newly-affiliated hospital system.

Partner <u>Rob Fuller</u> was the lead counsel on these transactions, assisted by Nelson Hardiman Partner <u>Lara</u> <u>Compton</u>, and associates <u>Lisa Montague</u>, and <u>Jennifer Langston</u>.
