The Need to Understand and Function in an Ever-changing Compliance Landscape

The L.A. County Bar Association (LACBA) will be hosting their 12th Annual Healthcare Law Compliance Symposium on October 1st, 2015 at LA Hotel Downtown. Nelson Hardiman co-founder and managing partner Harry Nelson is among the list of special guest presenters at this event.

Program Information: Virtually every facet of the healthcare industry is subject to a complex web of federal and state laws, rules, and regulations. Government efforts to enforce these laws and punish violators have become increasingly common and successful.

With budgetary constraints at all levels and virtually all of the provisions of the Affordable Care Act now implemented, enforcement activity will only intensify. The need to understand and function in an ever-changing compliance landscape has never been greater. Our distinguished faculty will guide you through today's most important compliance issues.
